## **EISNERAMPER WEALTH MANAGEMENT & CORPORATE BENEFITS A WINNER IN THE INVESTMENTNEWS 2017 BEST PRACTICES AWARDS**

**Fifth Annual Awards Program Recognizes Firms for Excellence  
in Practice Management, Technology**

---

**Monday, November 15, 2017 – ISELIN, NJ:** – EisnerAmper Wealth Management & Corporate Benefits was named a winner of the InvestmentNews 2017 Best Practices Awards in the category of Compensation & Staffing. The Awards competition is an important initiative that recognizes the top-performing and most innovative firms in the financial advice industry.

The winners of the InvestmentNews Best Practices Awards were identified through their participation, along with more than 700 other independent advisory firms, in the 2017 Adviser Compensation & Staffing and the 2017 Adviser Technology Study. To identify the 2017 Best Practices Award winners, InvestmentNews Research created composite scores that examined several key metrics from its core benchmarking studies – including a firm's rate of growth, profitability and productivity level as well as qualitative interviews as conducted by the InvestmentNews Best Practices Committee.

"The Best Practices winners are some of the most strategic and successful firms in the financial advice business," said Mark Bruno, associate publisher at InvestmentNews and head of InvestmentNews Research. "Their leaders have a clear plan and vision for growing their firms and managing elite organizations. Acknowledging their accomplishments and telling their stories will help educate, inform and influence the growth of the overall industry."

Our mission is to help our clients navigate through the risks and opportunities in achieving their life goals and corporate goals.

We foster an environment to inspire trust and confidence through all facets of the services we provide.

The InvestmentNews Best Practices Awards are among the most prestigious and coveted peer-based financial advisory awards. “The rigorous and independent selection process behind these awards makes this a special win for EisnerAmper Wealth Management & Corporate Benefits, said Charly Weinstein, Chief Executive Office of EisnerAmper LLP. “This is a significant and impressive accomplishment by the entire team and extend them my warmest congratulations.”

In remarks made after the Awards were announced, Marc Scudillo, Managing Officer of the Wealth Management practice said, “All of us are very proud of this award which provides confirmation that we are among the very leading edge advisory firms in our industry. We strive to become our clients’ advocates when dealing with their financial lives and this dedication to client service is what is being recognized by this award.”
